Deep  
in my mind  
my heart  
my Oasis  
I am free  
to be

Free  
To be happy

Free  
To be open

Free  
To progress

Free  
To excel

Free to explore  
and play  
Connect with the new  
everyday

Free to imagine  
and create  
Fill with confidence  
Participate and integrate

Free to grow  
and fly  
Spread my wings  
Touch the sky

In my mind  
my heart  
my Oasis

I am free  
to be

# My Oasis

Oasis International School is a learning centre of global standards. Our culture is inclusive, and this enables us to imbue creativity and confidence in every child. Each child who learns and grows up here, or even joins later, integrates and flourishes in this environment. Our teachers and staff have the highest levels of training and deep rooted values.

**Where students are free to dream, to imagine and connect with the new everyday**

Each day at the school is full of new discoveries. The air is rich in conversations and mature explorations of fresh new ideas. Students learn from mentors and peers, from nature and by doing things hands-on in a spirit of play.

**Our Purpose is to nurture responsible individuals who will contribute positively, integrate and connect with the world as responsive global citizens.**

## What We Do

We create an inclusive, nurturing and holistic learning ecosystem, leveraging global best educational methodologies to empower students with the freedom to learn, to grow and progress.

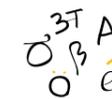

## How We Do It

At Oasis International School we give equal importance to culture, respect and exploration. Values are deeply ingrained in our students, who apply ethics in every aspect of their lives. A blended learning system empowers them to reflect upon the world through the lens of critical thinking. They learn to accept diverse cultures with compassion and empathy and develop as changemakers.

## Nurturing a Learning Ecosystem

**Dynamic and Blended Learning**

**Culture Studies**

**Performing Arts**

**Creative and Critical Thinking**

**Entrepreneurial Mindset**

**Global Perspectives**

# Free to be

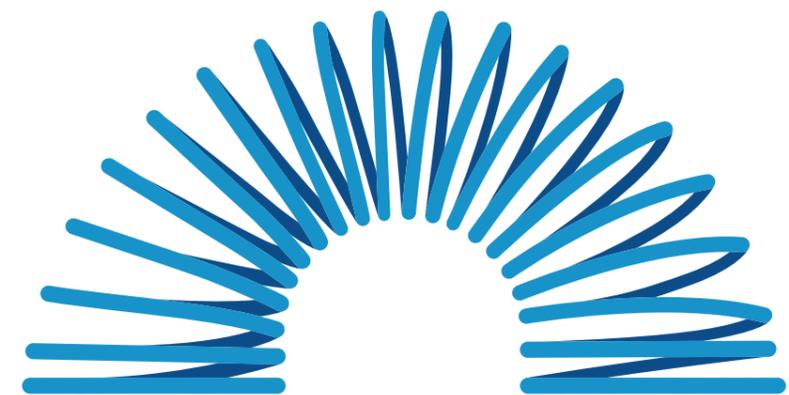

Every day we celebrate the fact that we have had the freedom to create our school differently. We give this freedom back to our students, a freedom that comes with responsibility. A responsibility that comes from deep-rooted values, to contribute positively to our nation and the world, and a pledge to protect the freedom and dignity of everyone.

**At Oasis, students are happy and they are free to be.**

## **OASIS INTERNATIONAL SCHOOL IDENTITY**

A spirit of discovery and play, the flexibility of mind and body, a dynamic nature. The Oasis identity reflects simplicity in expression. A slinky toy may well have inspired our logo. You could even imagine it as a vast rainbow across a bright blue sky, or the stretching of the creative mind of a young child.

# Free to learn

At Oasis International School, students are free to explore and express new ideas on every subject. Going beyond rote learning, lessons are planned considering the needs of every individual student. They are encouraged to deliver projects based on their choice and core skills.

A host of extra curricular activities such as painting, cooking, coding, gardening, gymnastics and sports make learning fun. Our students emerge as free thinking, responsive, responsible and connected individuals, ready to participate and contribute positively to the world.

## LEARN BY DOING

We apply an immersive experiential learning methodology to hone young minds. Mentors become coaches, simplifying complex concepts, and students learn by experimenting, making mistakes, asking lots of questions, doing live projects hands-on.

## LEARN FROM NATURE

Our students learn from nature as much as they learn from classrooms. Activities such as gardening builds their power of observation. It inspires a sense of enquiry in young minds about the world around them.

## LEARN THROUGH PERFORMING ARTS

We use contemporary learning methodologies such as drama to empower each student with a sense of freedom to express ideas in a creative and impactful way.

## LEARN THROUGH TECHNOLOGY

We use blended learning to enhance understanding through virtual classroom instruction by elite international faculty. Going beyond the conventional, our classrooms are equipped with virtual learning technology platforms to make the learning journey more enjoyable for students. This helps students to bridge the oceans of knowledge in an immersive, experience learning driven environment.

Virtual Learning classrooms are conducted twice a week. Workshops on Robotics, IoT etc are conducted regularly to inspire the naturally creative minds of students.

## LEARN FROM EMPATHY

The true purpose of knowledge is to enable students to connect learning with real life situations, participate and contribute positively. Learning from Cambridge Global Perspectives and Service Learning Programmes (SLPs) enable our students to connect learning to the society we live in and contribute positively as conscious and motivated individuals.

## LEARN WITH CURIOSITY

Learning starts with inquiry. We enable students to master concepts at their own pace and get real-time feedback for their assignments.

*Enhancing learning  
through virtual  
master classes*

## LEARN FROM THE BEST

Our programmes include the Cambridge International Certificate for Teaching and Learning (CICTL), Cambridge International Diploma for Teaching and Learning (CIDTL), and Cambridge International Diploma for Educational Leadership (CIDEL).

**OASIS International School is one of the first schools in India to get certified as a Cambridge Professional Development Qualifications (PDQ) Centre. 60% of our staff have the Cambridge Qualification in teaching and learning.**

Teachers let the children explore. They are not limited to a particular study plan and are never compelled to follow a certain must-do method. They become mentors who continue to inspire and guide young minds in an open learning environment.

*"A true teacher doesn't teach you to think like her, & but to think without her"*

SHIFT

# Free to play

Oasis International School nurtures your child's spirit of teamwork and play. Along with studies, the school equally emphasises on sports and games such as Football, Cricket, Basketball, Table tennis, Throwball, Badminton and Athletics for holistic development of the students.

Going beyond rote learning, our students learn to innovate and invent by working on projects across diverse manipulative sets. This helps them connect classroom theory and practice to solve real-world problems.

# Free to express

To be free is for everyone to have the freedom and be sensitive towards others' feelings. At Oasis International School, we empower each student with the freedom to express their ideas in creative ways.

Our school provides students various programmes in performing arts such as talent shows, theatre and weekly assemblies. This enhances their creative expression skills and identities. For example, drama helps students communicate and collaborate better with a show and tell approach, react spontaneously to challenges and take greater risks. They become more innovative in problem solving and decision making.

# Free to thrive

We integrate counselling, Quality Circle Time, mindfulness, School Cinema and Service Learning Programmes into our curriculum.

This ensures that our students grow up to be responsive individuals who understand and are empathetic to each other's needs. Learning is all about growing and thriving. Our students learn to thrive in a continuously transforming world.

## **MINDFULNESS TRAINING AND MENTAL HEALTH**

At Oasis International School mindfulness training helps build resilience in students and improves their mental health. Students face a lot of stress and anxiety everyday, and this can be attributed to various external factors. Against this scenario, mindfulness training is emerging as an increasingly effective method for mentors to prepare the next generation of change makers.

## **SERVICE LEARNING PROGRAMME (SLP)**

Service Learning Programme (SLP) is a parent led experiential programme, aimed at developing the universal values of empathy, gratitude, love and respect, through the medium of community service. The programme was conceptualised keeping in mind the school's vision of making students conscious of their social responsibility towards the less fortunate and emerge as contributing members of the society. Our students also participate actively in projects and activities with organisations such as Bal-Janagraha, which aims to motivate and create social and civic awareness in them.

## **GLOBAL PERSPECTIVES**

We follow the Cambridge Global Perspectives programme. This is a unique, transformational programme that helps students at every stage of school education to develop outstanding transferable skills, including critical thinking, research and collaboration.

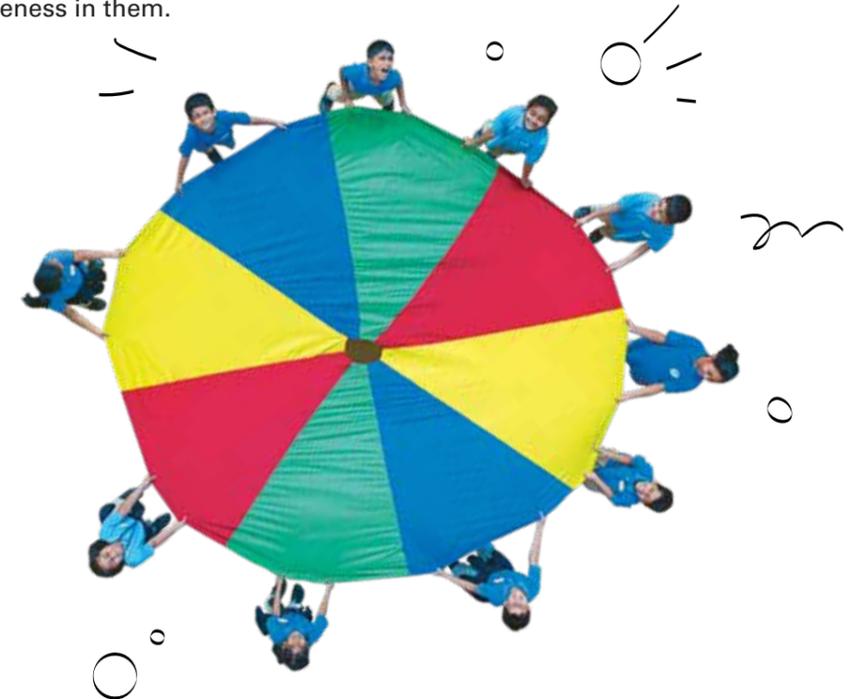

The programme taps into the way today's students enjoy learning, including group work, seminars, projects and working with other students around the world.

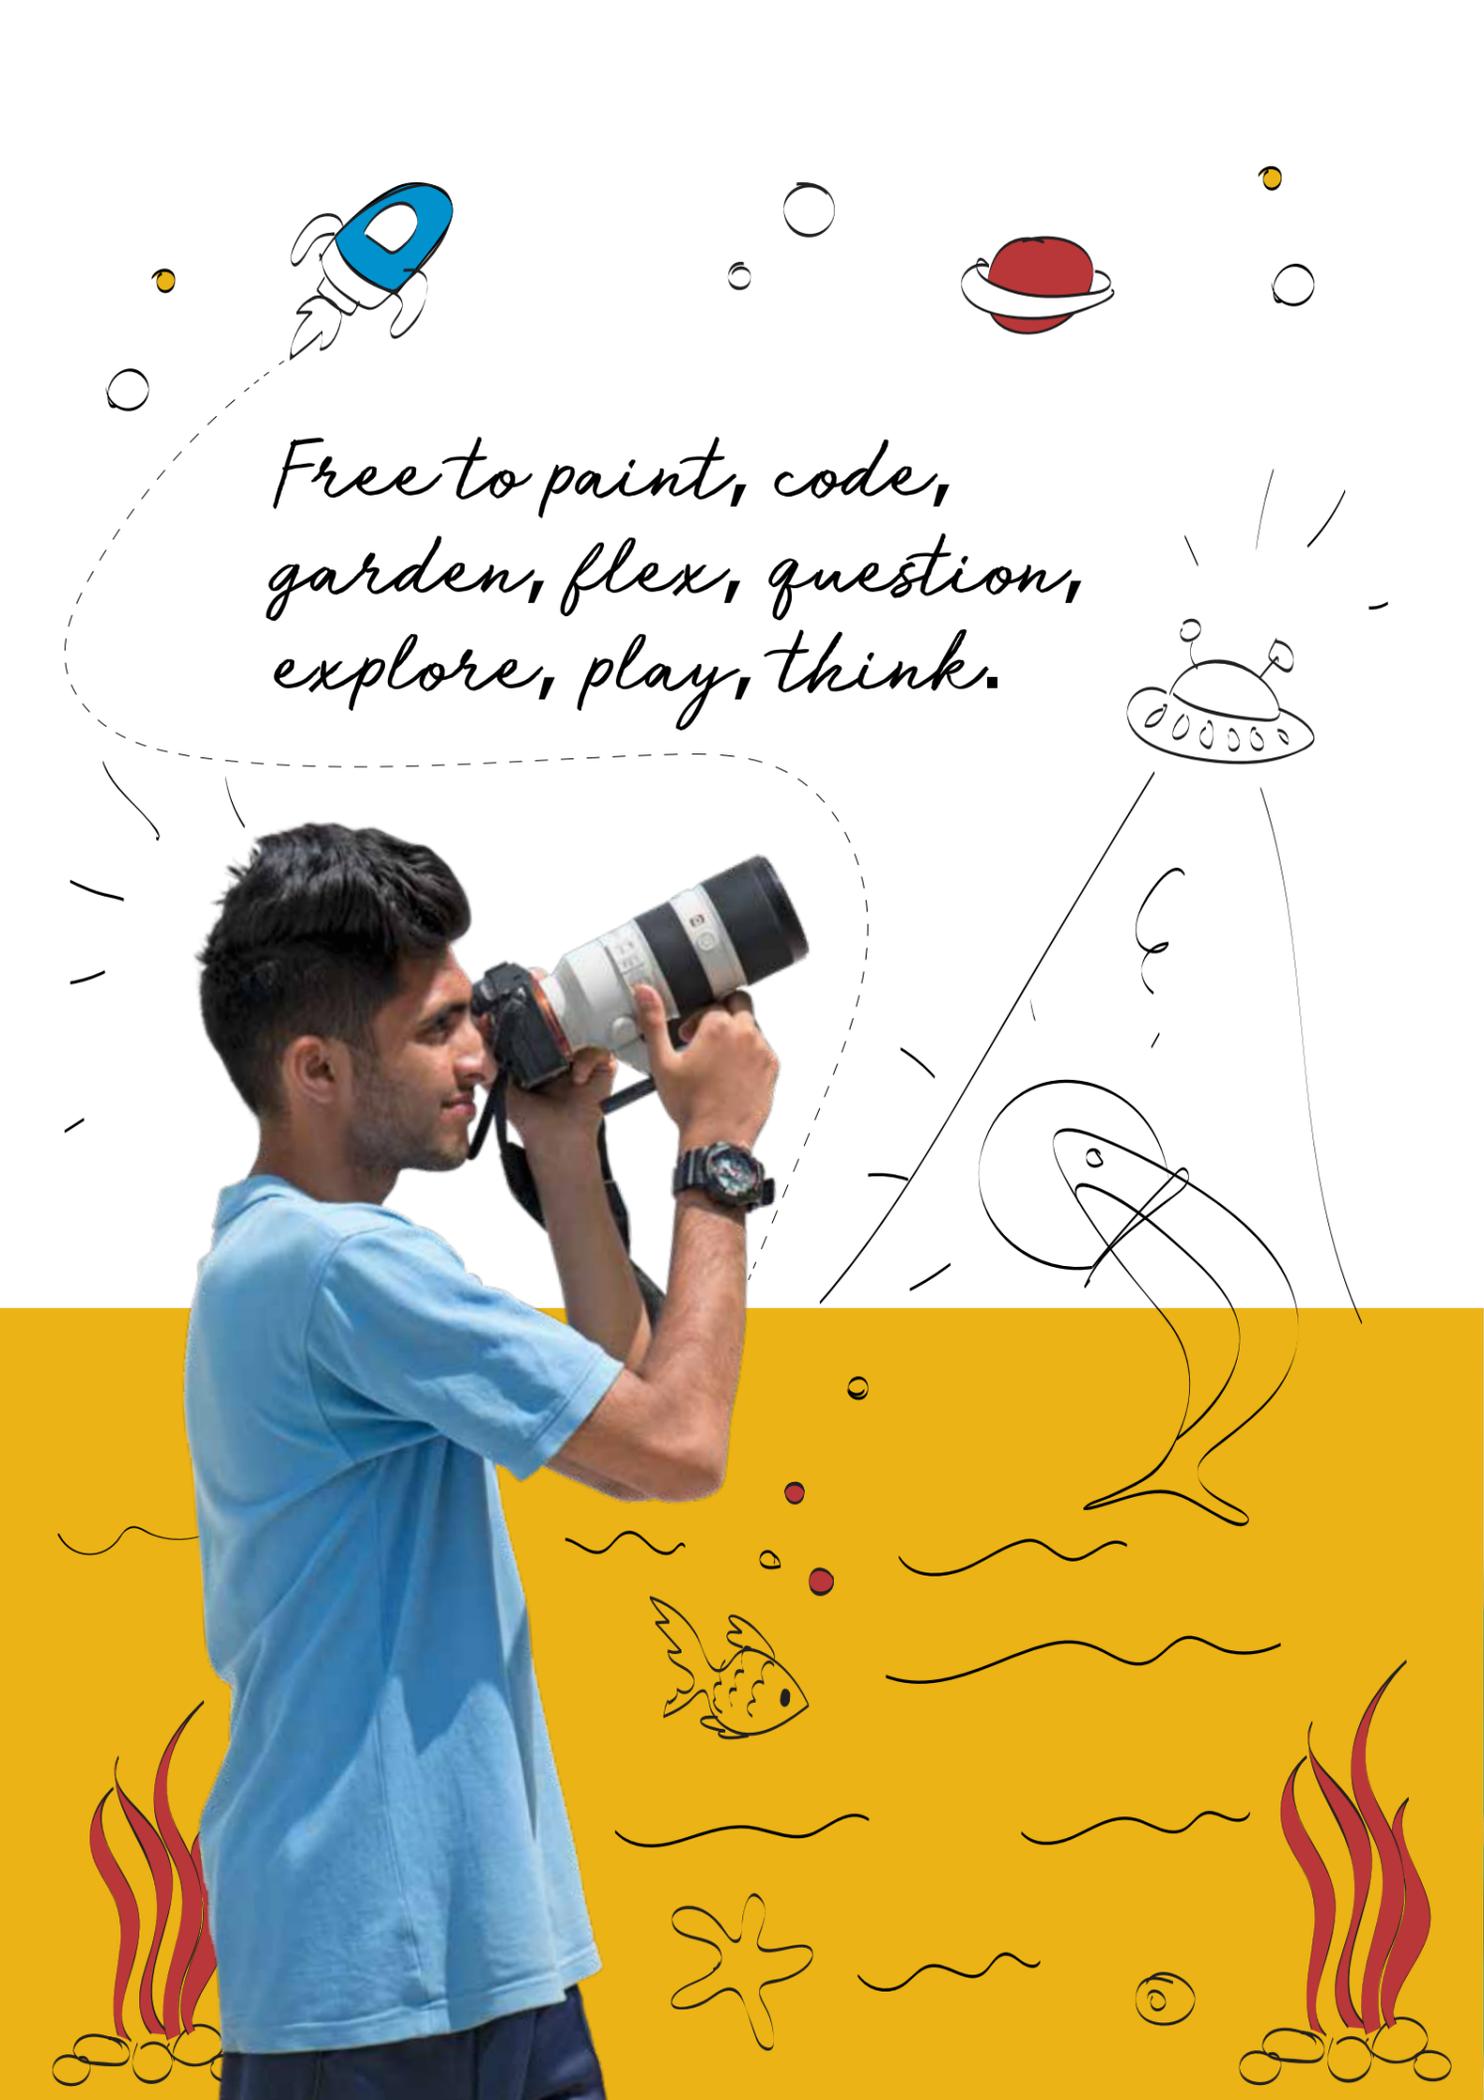

## **QUALITY CIRCLE TIME**

Our faculty is trained in Jenny Mosley's concept of Quality Circle Time (QCT). This creates an opportunity for students to share their feelings in an emotionally safe and sensitive atmosphere. Quality Circle Time has proven successful in promoting better relationships and helps with positive behaviour management of children.

We will soon offer a 24x7 Student Assistance Programme (SAP) as a helpline and support system for students and their families.

*Free to paint, code,  
garden, flex, question,  
explore, play, think.*

# Free to dream

Oasis International School provides Counselling and Career Guidance right from middle school to high school. This expands the professional horizons of our students and helps them to excel as individuals who make responsible choices.

We believe that the future lives in the minds and hearts of our students. They need the space to imagine and create a world of their dreams. In their own way, at their own pace. We connect them deeply with the world around them by creating a heightened state of empathy and understanding with tools and methods of design thinking. It is from this connect, that powerful thoughts and ideas emerge, that inspire students to act upon and do something tangible and creative.

We expand the minds of students and help them understand their place in our world as problem solvers, as responsible and resilient project leaders and as independent and supremely creative individuals with a dream and the will to believe and realise it. It is on this journey, that students evolve from consumers to become future creators.

Activities which facilitate this, such as the Dream School will be organised in the near future.

## **OASIS INTERNATIONAL SCHOOL CAMPUS**

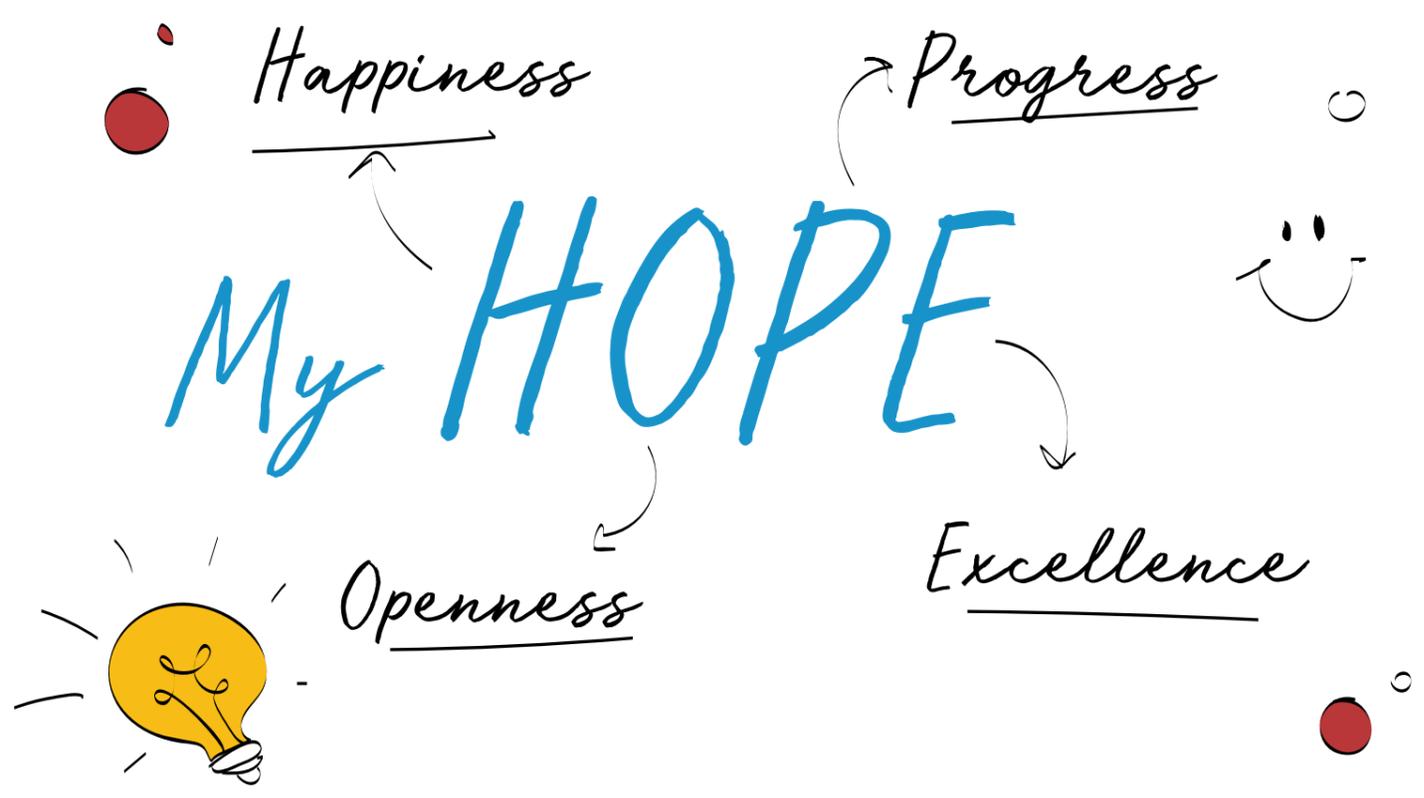

At Oasis International School, students are free to grow in a nurturing learning ecosystem. The main campus is located on

a sprawling 3 acre plot which is a short drive off Hennur Road in Bengaluru, Karnataka. This locale has many new facilities and a growing global populace. The school is surrounded by pristine nature with eucalyptus groves, wheat and maize fields, vineyards, floriculture farms and flocks of birds flying by everyday. We have possibly one of the biggest International school campuses in North Bengaluru. The school building is designed in contemporary style by a globally renowned architect.

The design of Oasis International School is under observation by an international jury for an architectural design award in Europe.

The infrastructure is state-of-the-art, with all facilities to ensure a truly world class learning experience. This includes large, brightly lit classrooms, fully equipped laboratories, IT facilities, ample play areas, junior and senior libraries, counselling centres, learning labs, amphitheatres, playgrounds, basketball court, sick bays and a canteen.

Sustainability is at the heart of the design of the school building. The campus is designed to reduce carbon footprint. We harness solar power to reduce energy consumption. The Green Roof, Rainwater Harvesting, Wastewater Management and Solid Waste Management add to our green initiatives.

Oasis follows an international curriculum, delivered in ever exciting and interactive ways. This is to engage and inspire, to invest in each child a spirit of service along with the deepest understanding of their own limitations and potential.

The Oasis belief is that children are full of possibilities that can be opened up in a nurturing environment. They are hope manifested! As an incubation space for fresh new ideas and talent, our HOPE Hall and Career Counselling Lab catalyse this process.

**The new Hope Hall is a space for creativity and new ideas to flourish in a self directed learning space and spirit.**

**HAPPINESS**  
The joy of exploring new knowledge, ideas and thoughts from the classroom and nature.

**OPENNESS**  
The freedom to ask questions fearlessly and learn by doing things hands-on.

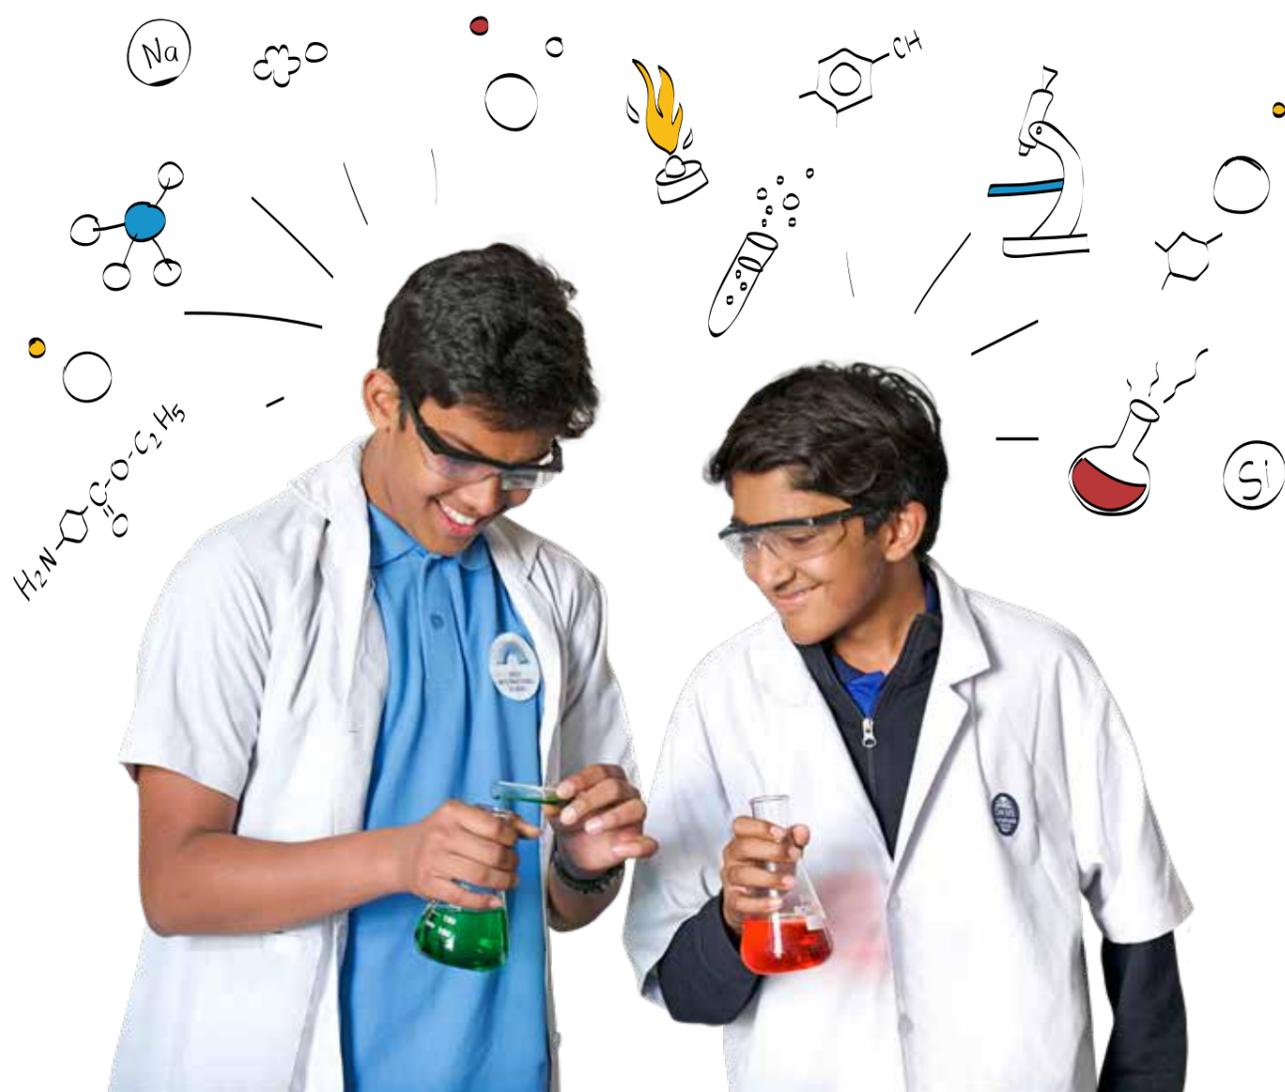

**PROGRESS**  
Evolve as conscious, independent and responsible individual changemakers.

**EXCELLENCE**  
To excel as individuals by contributing positively not just to the self, but to the community and the nation.

# Our Curriculum

At Oasis International School, we follow the globally acclaimed Cambridge International curriculum. This gives our students the advantage of a world class learning methodology which combines conventional and experiential teaching methods.

**We are also one of the most affordable Cambridge Pathway Schools, offering the Cambridge Primary and Lower Secondary programmes with a wide variety of options for IGCSE, AS and A levels including Art and Design, Enterprise, Economics, Business and many others.**

## PROGRAMMES / COURSE STRUCTURE + AFFILIATION
